NORTH CAROLINA ADMINISTRATIVE CODE CLASSIFICATION SYSTEM

The North Carolina Administrative Code (NCAC) has four major subdivisions of rules. Two of these, titles and chapters, are mandatory. The major subdivision of the NCAC is the title. Each major department in the North Carolina executive branch of government has been assigned a title number. Titles are further broken down into chapters which shall be numerical in order. The other two, subchapters and sections are optional subdivisions to be used by agencies when appropriate.

Linda A. Miles, Esq.
City Attorney
P.O. Box 3136
Greensboro, NC 27402-3136

Dear Ms. Miles:

This refers to the three annexations (Ordinance Nos. 98-2, 99-11, and 99-17) and their designation to districts of the City of Greensboro in Guilford County, North Carolina, submitted to the Attorney General pursuant to Section 5 of the Voting Rights Act, 42 U.S.C. 1973c. We received your submissions on January 27, February 19, and March 2, 1999.

The Attorney General does not interpose any objection to the specified changes. However, we note that Section 5 expressly provides that the failure of the Attorney General to object does not bar subsequent litigation to enjoin the enforcement of the changes. In addition, as authorized by Section 5, we reserve the right to reexamine these submissions if additional information that would otherwise require an objection comes to our attention during the remainder of the sixty-day review period. See the Procedures for the Administration of Section 5 (28 C.F.R. 51.41 and 51.43).

Sincerely,

Elizabeth Johnson
Chief, Voting Section

A Notice of Rule-making Proceedings is a statement of subject matter of the agency's proposed rule making. The agency must publish a notice of the subject matter for public comment at least 60 days prior to publishing the proposed text of a rule. Publication of a temporary rule serves as a Notice of Rule-making Proceedings and can be found in the Register under the section heading of Temporary Rules. A Rule-making Agenda published by an agency serves as Rule-making Proceedings and can be found in the Register under the section heading of Rule-making Agendas. Statutory reference: G.S. 150B-21.2.

TITLE 15A - DEPARTMENT OF ENVIRONMENT AND NATURAL RESOURCES

CHAPTER 2 - ENVIRONMENTAL MANAGEMENT

Notice of Rule-making Proceedings is hereby given by the DENR-Environmental Management Commission in accordance with G.S. 150B-21.2. The agency shall subsequently publish in the *Register* the text of the rules it proposes to adopt as a result of this notice of rule-making proceedings and any comments received on this notice.

Citation to Existing Rules Affected by this Rule-Making: 15A NCAC 2E .0102-.0103, .0106-.0107, .0201-.0202, .0205, .0501-.0504. Other rules may be proposed in the course of the rule-making process.

Authority for the rule-making: G.S. 143-215.11 through 143-215.21

Statement of the Subject Matter: The Water Use Act of 1967 allows for the Environmental Management Commission to declare a capacity use area and prepare rules where aggregate water uses exceed the source's safe yield. There is evidence of present and future groundwater supply shortages within the Central Coastal Plain of North Carolina. Within this 15-county area, groundwater from the Black Creek and Upper Cape Fear aquifers is being withdrawn at a rate that exceeds the available recharge. The Central Coastal Plain Capacity Use Area rule would regulate water use through permitting.

Reason for Proposed Action: There is increasing evidence of present and future groundwater supply shortages within the area encompassed by the following 15 North Carolina counties: Beaufort, Carteret, Craven, Duplin, Edgecombe, Greene, Jones, Lenoir, Martin, Onslow, Pamlico, Pitt, Washington, Wayne and Wilson. Within these counties groundwater from the Black Creek and Upper Cape Fear aquifers is being withdrawn at a rate that exceeds the available recharge. To address threatened groundwater supplies in the region the North Carolina Division of Water Resources requests the Environmental Management Commission to create a capacity use area. The Central Coastal Plain Capacity Use Area would regulate water use through permitting to avoid damage to the groundwater resources and to maintain those sources of water indefinitely. The proposed regulation is a major rule and would affect both state funds and local government expenditures.

Water levels in the Black Creek and Upper Cape Fear

aquifers have been declining since the late 1960s as documented by Division of Water Resources databases. The Division has anecdotal information from the 1920s that water flowed from artesian wells at the time they were constructed. This continued decline, from free-flowing wells to water levels as much as 195 feet below land surface, indicates that current withdrawals of water from these aquifers exceed the available supply that can be used on a sustainable basis. Regulating the use of water in this area fulfills the intent of the Water Use Act of 1967 to protect the resource and to allow water uses that can be sustained into the future. Water users in this area have overused the resource since it has provided the highest quality water for their uses at the lowest costs. Growth in demand and the physical limits of the hydrogeologic system have resulted in the present situation.

Demands for water exceed the safe yields of the Black Creek and Upper Cape Fear aquifers such that other sources of water must be brought on line by water supply systems. Surface water and other aquifers will be used to meet this deficit. The availability of surface water sources in these counties is affected by water quality issues. Therefore, the proposed capacity use area includes regulation of both surface and groundwater withdrawals. The high yielding Castle Hayne aquifer is available in the eastern portion of the affected area. This capacity use area is proposed to include those eastern counties to control the exchange of water and promote controlled development of alternative supplies. Because the proposed capacity use area encompasses all areas within the existing Capacity Use Area No. 1 that require continued regulation, the existing Capacity Use Area No. 1 declaration and Rule (15A NCAC 2E .0201, .0202, and .0205) should be repealed when this proposed rule becomes effective.

The Water Use Act of 1967 allows for the Environmental Management Commission to "declare and delineate from time to time, and may modify, capacity use areas of the State where it finds that the use of groundwater or surface water or both require coordination and limited regulation for protection of the interests and rights of residents or property owners of such areas or of the public interest." The Act further states that a capacity use area "is one where the Commission finds that the aggregate uses of groundwater or surface water, or both, in or affecting said area (i) have developed or threatened to develop to a degree which requires coordination and regulation, or (ii) exceed or threaten to exceed, or otherwise threaten or impair, the renewal or replenishment of such waters or any part of them."

The most threatened portions of the Black Creek and Upper Cape Fear aquifers lie beneath the following fifteen North Carolina counties: Beaufort, Carteret, Craven, Duplin, Edgecombe, Greene, Jones, Lenoir, Martin, Onslow, Pamlico,

Pitt, Washington, Wayne and Wilson. The Division recommends water use regulation take place in these counties.

The Division's recommendation is based on the following concerns:

- a. Water level drawdowns. Monitoring wells specifically designed to track water levels in the Black Creek and Upper Cape Fear aquifers show water level drawdown trends ranging from declines of one to eight feet per year. Those monitoring wells are distributed throughout an 8000 square mile portion of the Central Coastal Plain.
- b. Dewatering. Water levels from water supply systems in several of these counties show drawdowns below the top of the aquifer by as much as 150 feet. Dewatering is known to cause irreparable harm to the aquifer's ability to yield water.
- c. Current and projected water use. Current and projected water use reported through the Local Water Supply Planning process {G.S. 143-355(l) & (m)} plus water use by other users have been compared to the estimated safe yield from the Black Creek and Upper Cape Fear aquifers. Projections through the year 2020 indicate a growing deficit in water supply. It is clear that

other sources of water must be developed to make up this deficit.

- d. Alternate water sources. The location and nature of alternate water supply sources for this region of North Carolina, including surface water and the Castle Hayne aquifer, make solutions to this problem more complex and extend the area affected by the problem. These other sources of water are limited due to water quality concerns in the lower Neuse and Pamlico River basins and inadequate access to the Castle Hayne aquifer for many of the affected water systems.

Comment Procedures: The purpose of this announcement is to encourage those interested in this proposal to provide written comments. It is very important that all interested and potential affected parties make their views known to the Environmental Management Commission whether in favor or opposed to any and all provisions of the proposal being noticed. Written comments may be submitted to Nat Wilson, DENR/Division of Water Resources, PO Box 27687, Raleigh, NC 27611, telephone (919) 715-5445.

This Section contains the text of proposed rules. At least 60 days prior to the publication of text, the agency published a Notice of Rule-making Proceedings. The agency must accept comments on the proposed rule for at least 30 days from the publication date, or until the public hearing, or a later date if specified in the notice by the agency. The required comment period is 60 days for a rule that has a substantial economic impact of at least five million dollars (\$5,000,000). Statutory reference: G.S. 150B-21.2.

TITLE 2 - DEPARTMENT OF AGRICULTURE

Notice is hereby given in accordance with G.S. 150B-21.2 that the North Carolina Board of Agriculture intends to amend rule cited as 2 NCAC 9K .0214. Notice of Rule-making Proceedings was published in the Register on January 15, 1999.

Proposed Effective Date: July 1, 2000

Instructions on How to Demand a Public Hearing (*must be requested in writing within 15 days of notice*): Any person may request a public hearing on the proposed rule by submitting a request in writing no later than May 1, 1999, to David S. McLeod, Secretary, North Carolina Board of Agriculture, P.O. Box 27647, Raleigh, NC 27611.

Reason for Proposed Action: Since the adoption of this Rule, Congress has pre-empted state standards of identity for food products that differ from federal standards. The portions of this Rule which establish standards of identity for lowfat and nonfat yogurt differ from federal standards and are thus pre-empted.

Comment Procedures: Written comments may be submitted no later than May 17, 1999, to David S. McLeod, Secretary, North Carolina Board of Agriculture, P.O. Box 27647, Raleigh, NC 27611.

Fiscal Note: This Rule does not affect the expenditures or revenues of state or local government funds. This Rule does not have a substantial economic impact of at least five million dollars (\$5,000,000) in a 12-month period.

CHAPTER 1 - DEPARTMENTAL RULES

SUBCHAPTER 11 - INDUSTRIAL DEVELOPMENT FUND

SECTION .0100 - PURPOSE AND DEFINITIONS

.0101 BACKGROUND AND OBJECTIVES

(a) BASIC—The purpose of the North Carolina Industrial Development Fund (also to be known as the Industrial Building and Renovation Fund) is to assist local town, city or county governments with incentive industrial financing located in the most economically depressed counties in the state, in areas of the state that have been designated as eligible tier areas by NC General Statutes. This assistance will be intended to help those units of government create new jobs by providing financing for the renovation or improvement and expansion of manufacturing or industrial buildings so as to induce "private profit making" entities to occupy, by lease or purchase, and to operate manufacturing or industrial businesses. units of government offer to its new and expanding industry, new or improved infrastructure, or funds for building renovation and equipment in exchange for commitments to create new, full-time jobs in industries currently eligible under NC General Statutes. (The fund is not designed to be used for the acquisition of land and buildings or constructing new buildings.) If the assistance is used for infrastructure, it shall be granted to local governments with no repayment; however, if it is used to purchase equipment or to renovate industrial buildings, then the funds must be repaid. But whether a grant or a loan, the amount of funds to be made available for a project shall be determined by the number of new jobs committed, with a maximum job limit and project limit as currently authorized for the program by NC General Statutes.

(b) ~~The objective of this program will be to provide new full-time jobs for North Carolina citizens. The Department will necessarily determine that the renovations and improvements are a necessary part of the private firms decision to provide the new jobs. If it is determined that the private firm would have (or has already begun to) spend private money to make these renovations and create these jobs, no funds from this program will be expended.~~

(b) EMERGENCY ECONOMIC DEVELOPMENT ASSISTANCE—This special assistance from the Industrial Development Fund, which is used at the discretion of the Secretary, is available to units of government that have, or shall imminently experience, a loss of 500 or more manufacturing jobs in the county, or a number of manufacturing jobs equal to at least ten percent of the manufacturing workforce in the county. Where a unit of government relies on the 500 jobs loss as the threshold for obtaining this special assistance, it must submit convincing evidence that the loss seriously impacts the county's economy, taking into account the county's tier ranking under .0701 of this Subchapter. The funding obtainable under this emergency assistance category shall not necessarily be determined by the number of new jobs to be created, although the project should lead to new jobs, or save jobs, or both, and help alleviate a jobs dislocation problem. The Secretary shall determine the amount of funds for a project, up to the maximum currently authorized for the program by NC General Statutes. This assistance shall be in the form of a low interest loan to the governmental unit, amortized over five years with repayment beginning at the end of the second year.

(c) UTILITY ACCOUNT — Within the IDF structure, the Utility Account provides financing to units of government for jobs creation and investment in the tier area(s), and for benefiting firms currently authorized by NC General Statutes. Funds may be used for construction or improvements to water, sewer, gas, or electrical utility lines and equipment for existing or proposed industrial buildings. There is no specific amount of funding specified for each new job or project, but the impact of the funding should lead to the creation of new jobs and new investment. As with basic IDF financing, if Utility Account funds are spent for public property, the assistance shall be a grant; for private property, it shall be a loan.

(d) CLEAN WATER BONDS PROCEEDS - Clean Water bonds proceeds from the IDF shall be used to make grants to local government units to pay the cost of clean water projects for economic development with regard to the locating of industry to, and the expansion of industry in the State. These funds shall be administered in the manner permitted in the Basic IDF and the Utility Account except the following limitations shall apply:

- (1) The funds shall be used for grants; not loans.
- (2) Grants shall be made only for projects that will have a favorable impact on the clean water objectives of the State.
- (3) Projects shall be located in economically distressed counties or those that have a population of less than 50,000 determined from the data derived at the time of the last December ranking of economically distressed counties.
- (4) Grants may be made only with respect to the industries specified by the Clean Water and Natural Gas Critical Needs Bond Act of 1998 as amended.
- (5) The water or sewer utility lines or facilities for which bond funds are disbursed shall not necessarily be located on the site of a building or proposed building at which an industrial activity occurs if the

utility lines or facilities will further the clean water objectives of the State.

Authority G.S. 143-437.01.

.0102 DEFINITIONS

(4) "IDF" means the Industrial Development Fund.

(e) "Qualified County" means one of the 50 most economically depressed counties in the state. The Secretary of the Department shall determine which counties are the most economically depressed counties in the state based on: rate of unemployment, per capita income, and relative population and work force growth or lack of growth, as determined by the Secretary. The figures used in making this comparison and the delineation of "most" and "least" will be the latest available per capita income figures by county, as documented in a published form by any State or Federal Agency generally recognized as having expertise and creditability in these fields.

(f) "Emergency Assistance Qualified County" means any county which is facing the threat of, or which is experiencing a major economic dislocation. A major economic dislocation would mean the actual or imminent loss of manufacturing jobs caused by one or more plant closing(s) or one or more announced plant layoff(s) which affect:

- (1) at least 500 jobs; or
- (2) a number of jobs which is equal to or exceeds ten percent of the existing manufacturing work force.

In the case of Subparagraph (f)(2) of the Rule, the number of jobs impacted must exceed 50.

(5) "Eligible tier areas" means the aggregation of North Carolina counties into groups in which certain economic benefits apply, as currently authorized by

G.S. 105-129.3.

(6) "Unit of Government" means a town, city or county of the state.

(7) "Full-time Job" means a job that requires at least 1600 hours of work in a year.

(8) "Infrastructure" means utilities, typically referred to as "public utilities," or a rail spur where there is public ownership of the rail property.

(9) "Grant" means money given to a unit of government to pay for an economic development project and does not have to be repaid, if the terms of the grant are fulfilled, i.e. the jobs commitment is met.

(10) "Loan" means money loaned to a unit of government to pay for an economic development project, to be repaid by the borrower based on an amortization schedule approved by the Department.

(g) "Project" means one or more activities proposed for funding, or for partial funding, under this Rule. Such a project will be described in a narrative and accompanied by a preliminary set of drawings which set out the exact factual situation and a detailed schedule of costs from a contractor or engineer. The schedule must constitute an ability to complete such project with no more than a ten percent contingency. All such project material will provide evaluations of potential for unusual site characteristics which might influence construction or operating costs. In each case, the project description will document the direct relationship between the project and the jobs created.

(11) "Project" means an activity proposed for IDF funding. It shall be described narratively in an application and accompanied by a preliminary set of drawings, or sketches, or other data that present the project in factual detail, together with a schedule or itemization of costs from an engineer or contractor. The schedule of costs shall constitute the ability to complete a project with no more than a 10 percent contingency.

(4) Project expenditures for existing buildings may include:

(12) Project expenditures may include:

(a) For basic IDF—

(i) the construction of, or improvements to existing water, sewer, gas or electrical utility systems, distribution lines, or required storage facilities, or a rail spur when either is publicly owned and operated, and or;

(iii) improvements to the building that are necessary to make the a building suitable for the occupancy of the building by the occupant and the

operator of the project. Such improvements may include mechanical equipment such as heating or and air conditioning equipment, plumbing, pipes or trenching to handle effluents or process water, special electrical additions necessary for ovens, furnaces or other processors and lighting. If a renovation or an improvement is critical to the operation of a particular manufacturing or industrial businesses business, or, if such improvements are or is critical to the decision making process pertinent to the creation of such jobs, the actual improvement need not be located on the site of the industrial main project building. If, however, a grant of funds is involved, the improvement must be constructed on public right-of-ways or on property which the unit of government has an easement to treat as it normally would do as if it owned the property. However, when extending infrastructure to a firm, IDF assistance ends at the private property line. Still in either situation, the application must document the exact relationship of between the jobs and the project. An example of a fundable project would be the case where a the unit of government must construct an elevated water tank and service water lines to provide water to a building so as to provide sprinkler water to a building where such service is directly required to operate the an industrial or manufacturing business. An example of an unfundable project would be where a unit of government seeks to expand or to repair its water utility (or other infrastructure) system and where the relationship to the creation of jobs is fairly general or indirect vague. The project will shall be described in from the perspective of employment to be created in the and its impact area of to the project. Direct and indirect jobs will be treated separately in the discussion. The operator of the project will provide details as to the nature of direct jobs created, including the skills required, work conditions, wages paid and seasonal influences on the number of work days per year.

- (D) the installation of or purchase of manufacturing equipment or process productions equipment.

- (iv) the purchase and installation of equipment that is associated with the industrial classification of the project.

- (2) In the case of counties designated as "severely depressed", project expenditures may include construction of or improvement to new or existing water, sewer, gas, or electrical utility distribution lines or equipment to serve new or proposed industrial buildings to be used for manufacturing and industrial operations. Such infrastructure shall be located on the site of the building or directly related to the specific manufacturing activity.

- (b) For Emergency Economic Development Assistance—Loans to local units of government for economic development projects designed to create jobs, lead to the creation of jobs, or save jobs, and to assist in alleviating the economic dislocation created by the loss of jobs.

- (c) For the Utility Account—

- (i) the construction of, or improvements to water, sewer, gas or electrical utility systems, distribution lines, or required storage facilities, or a rail spur or rail line when either is publicly owned and operated, and or;

- (ii) equipment for existing or proposed industrial buildings for operations in the industrial classifications that are currently eligible to receive Utility Account funding within the tier area.

- (e) "Renovation" shall have the same meaning as project, as described in Paragraph (g) of this Rule.

- (f) "Secretary" means the Secretary of the Department, or his designee.

- (g) "State" means the State of North Carolina.

- (d) For Clean Water Bonds—

- (13) "State" means the State of North Carolina.

- (k) "Severely Depressed" counties means those counties so designated under G.S. 105-130.40(c) or G.S. 105-151.17 (c) or units of governments within those counties.

(16) "Local Matching Requirement." The Department requires local matching in grant projects except for Emergency Economic Development Assistance projects and those located in a tier area that has been exempted from matching by NC General Statutes. The required rate shall be one for three, or one local dollar for each three state dollars.

(17) "Participation Loan" means a loan between at least three parties, to wit: A bank or financial institution, the private firm, and the unit of government. The essence of a participation loan is that the bank, or financial institution, and the unit of government shall share at least equally in the lending arrangements, meaning the money loaned and the risk involved and collateral shared.

(18) "Borrower" means the private firm identified in a participation loan for building improvement or equipment in the basic IDF, or the unit of government when the money is spent for emergency economic dislocation assistance or when the money is reloaned in a utility account project. Additionally, the unit of government shall be the borrower when IDF is used to assist local matching, or in other cases when the Department believes the project can be more prudently structured as a loan rather than a grant.

(19) "Preapplication Conference" means a meeting held at the Department to discuss a proposed IDF application and includes: a representative of Commerce Finance Center; the applicant; an official of the benefiting firm; and a banker, if a participation loan is involved. - (a)(1) Reducing the reliance on wells, septic tanks and similar facilities;
- (b)(2) Allowing residences, businesses, or local governments not otherwise served by water or sewer or wastewater infrastructure to connect into a distribution line or system (for water supply, sewer, or wastewater) being furnished in an economic development project for new or expanding industry.

If there are practical difficulties about a small amount or cost disadvantages, these will be discussed with the applicant in a preapplication conference. Grant IDF awards shall not exceed the total amount specified appropriated by the General Assembly in its appropriation process. Chapter 830 of the 1987 Session Laws, in Section 111, Paragraph (2), limited the maximum grant to a sum not to exceed the lesser amount the two hundred fifty thousand dollars (\$250,000), or a total of twelve hundred dollars (\$1,200) for each job created. For basic IDF, Emergency Economic Development Assistance, and Clean Water Bonds Proceeds, per job or per project maximum funding limitation will be the amounts established under current law. There is no maximum set for Utility Account funding; but the amount of awards will be determined by the Secretary. For the purpose of this Section basic IDF, the per job limitation shall be ~~imposed applied~~ on the basis of requiring a commitment from the ~~occupying industrial or manufacturing firm operator of the business~~ as to the number of jobs ~~it will create that shall be created~~ over a reasonable

period of time, not to exceed three years. The number of jobs created will include only those people directly employed in permanent or seasonal jobs by the operator who occupies the facility; indirect and temporary jobs will not be included. Those will be permanent, full-time jobs; no temporary or contract jobs.

(c) When a project renovation or improvement is to be accomplished to a building or on a site owned by a private entity, whether the private entity is conducted on a "for profit" or on a "not for profit" basis, the project will be financed by a loan to that private entity. This loan will be made to the private entity by the local unit of government with funds made available from this program. In each case, the local unit of government will establish its own authority to do that financing. The applicant will require and provide to the Department of Commerce satisfactory documentation that all costs are reasonable and that all funds are to be expended with regard to the conflict of interest statutes regulating business transactions between government officials and other involved parties. The applicant will propose a plan of project administration which is satisfactory for the Department of Commerce.

(d) All funds expended which directly assist participating private entities must be repaid to grant recipients and then returned to the Department of Commerce as such repayments are received. Such repaid funds will not be returned to the General Fund, but set aside to fund new projects approved under this Subchapter. Generally, project grants classified under Rule .0202 (a) (1) will not be repaid. Repayment for projects otherwise classified may be given subordinate collateral positions, interest costs which are at less than market rates, or amortization which defers cash flow, in so long as requests are documented as necessary to the creation of jobs and the success of the project.

(e) A project will be subject to review by the Department of Commerce at any time during the first three years after the project begins. For a project classified under Rule .0202 (a) (2) (3) (4) and (5) of this Rule, any repayment balance that it owes the local unit of government may be partially or fully accelerated if the business has closed, or if the operating company has not made reasonable progress towards its jobs creation goal.

(c) The Department may authorize a local unit of government that receives IDF funds to use up to two percent of the funds to verify that expenditures are made in accordance with the law and rules and to otherwise administer the IDF project.

(d) Under basic IDF, improvements to building properties and equipment purchases (either of which becomes private property) shall be loan projects and will be accomplished with participation loans. The three parties to a participation loan shall be: the borrower's North Carolina bank, the borrower, and the unit of government. The bank and the unit of government (using IDF funds) shall be at least equal participants, sharing equally in the funds provided and in the risk and collateral involved. The bank, however, may supply more money than just matching IDF; in this case, the bank's pro rata share is larger. Also, in the matter of sharing equally,

this means that if the bank takes a certain collateral position, the unit of government shall share in that position. If either an out-of-state bank or a financial institution other than a bank is used in a participation loan, that must be approved by the Department.

(e) IDF funds may be provided to a unit of government to meet matching funds requirements. In this case the Department shall furnish a loan repayment schedule to the mayor, city manager or county manager, which, in addition to the award letter and application, will establish the responsibility for repayment, and times and amounts of repayment.

(f) Loans for Emergency Economic Development projects shall be accomplished as in Paragraph (d) of this Rule.

(g) Loans for Utility Account projects will be accomplished as in Paragraph (d) of this Rule.

(h) With either grants or loans, the Department shall require financial information from the project owner or operator to establish financial capability. The usual requirement will be the preceding three years' financial and operating statements; for new businesses, at least three years pro forma statements and a business plan. In any case, the Department may use credit reports, bank information, or other data that it deems appropriate to establish the credit worthiness of the borrower.

(i) A project will be subject to review by the Department at any time during the first three years after the project begins.

(j) The Department may require a unit of government to partially or fully accelerate loan repayments if the operator's business has closed, moved, or if the company has not made reasonable progress toward its jobs creation commitment. The Department may require repayment of a grant, partially or fully, if the operating company has moved, closed, or has not made satisfactory progress towards its jobs creation commitment; and, in the case of Emergency Economic Development Assistance or the Utility Account, if funds are not spent in the manner for which they were approved.

Authority G.S. 143B-437.01.

G.S. 143B-437.01.

TITLE 15A - DEPARTMENT OF AND ENVIRONMENT NATURAL RESOURCES

Notice is hereby given in accordance with G.S. 150B-21.2 that the DENR - Environmental Management Commission intends to amend rules cited as 15A NCAC 2B .0303-.0304. Notice of Rule-making Proceedings was published in the Register on January 15, 1999.

Proposed Effective Date: August 1, 2000

A Public Hearing will be conducted at 6:00 p.m. on May 25, 1999 at the Haywood County Commissioner's Boardroom, 215 North Main Street, Waynesville, NC.

Reason for Proposed Action: 15A NCAC 2B .0303 - The Environmental Management Commission is proposing to reclassify Wesser Creek in Swain County (Little Tennessee River Basin) to include the Trout (Tr) supplemental classification. Wesser Creek is proposed for reclassification from its source to Connelly Creek from Class C to Class C Tr. A portion of Wesser Creek near its confluence with Connelly Creek currently carries the Trout classification. Studies conducted on Wesser Creek show that the stream supports a naturally reproducing rainbow trout population and thus meet the criteria for supplemental classification as Trout waters. If reclassified, wastewater dischargers to Wesser Creek will be required to comply with water quality standards for Trout waters as set forth in 15A NCAC 2B .0200. Some of the water quality standards applied to Trout waters, such as the dissolved oxygen standard, are more stringent than the water quality standards applied to Class C waters.

15A NCAC 2B .0304 - The Environmental Management Commission is proposing to reclassify Rough Creek in Haywood County (French Broad River Basin) to include the Trout (Tr) and Outstanding Resource Waters (ORW) supplemental classifications. Rough Creek, from its source to the Canton Reservoir, including tributaries, is proposed for reclassification from Class WS-I to Class WS-I Tr ORW. The Town of Canton has requested that Rough Creek be reclassified to include the supplemental ORW classification. In order to be classified as ORW, a water body must be of

exceptional state or national recreational or ecological significance and the waters must have exceptional water quality. In addition, the waters must also exhibit one or more of the following resource values or uses:

- (1) there are outstanding fish (or commercially important aquatic species) habitat and fisheries;
- (2) there is an unusually high level of water-based recreation or the potential for such recreation;
- (3) the waters have already received some special designation such as a North Carolina or National Wild and Scenic River, Native of Special Native Trout Waters, National Wildlife Refuge, etc. which do not provide any water quality protection;
- (4) the waters represent an important component of a state or national park or forest; or
- (5) the waters are of special ecological or scientific significance such as habitat for rare or endangered species or as areas for research and education.

Water quality analyses show that Rough Creek has excellent water quality. Several outstanding resource values were identified, including: a reproducing brook trout population; the watershed is a designated Natural Heritage Area; there are plans to establish an educational facility underway; and a rare wetland bog community which supports several rare plant species was identified in the headwaters area. Special protection measures that apply to North Carolina ORWs are set forth in 15A NCAC 2B .0225. At a minimum, no new wastewater discharges or expansions to existing discharges are permitted, and stormwater controls for most new development are required.

Comment Procedures: The purpose of this announcement is to encourage those interested in this proposal to provide comments. You may either attend the public hearing and make relevant verbal comments or submit written comments, data or other relevant information by June 24, 1999. The Hearing Officer may limit the length of time that you may speak at the public hearing, if necessary, so that all those who wish to speak may have an opportunity to do so. We encourage you to submit written comments as well. The EMC is very interested in all comments pertaining to the proposed reclassifications. It is very important that all interested and potentially affected persons or parties make their views known to the EMC whether in favor of or opposed to any and all provisions of the proposed reclassification. The EMC may not adopt a rule that differs substantially from the text of the proposed rules published in the North Carolina Register unless the EMC publishes the text of the proposed different rule and accepts comments on the new text (see 150B-21.2(g)). All interested and potentially affected persons are strongly encouraged to read the entire announcement and supporting information, and make appropriate comments on the proposal. Written comments may be submitted to: Liz Kovaschitz, DENR - Division of Water Quality, 512 N. Salisbury Street, Raleigh, NC 27611, Phone: 733-5083, Ext. 572.

Fiscal Note: These Rules do not affect the expenditures or

revenues of state or local government funds. These Rules do not have a substantial economic impact of at least five million dollars (\$5,000,000) in a 12-month period.

Authority G.S. 143-214.1; 143-215.1; 143-215.3(a)(1).

Notice is hereby given in accordance with G.S. 150B-21.2 that the DENR - Environmental Management Commission intends to amend rule cited as 15A NCAC 2B .0306. Notice of Rule-making Proceedings was published in the Register on January 15, 1999.

Proposed Effective Date: August 1, 2000

A Public Hearing will be conducted at 6:00 p.m. on May 10, 1999 at the East Henderson High School Auditorium, 110 Upward Road, East Flat Rock, NC.

Reason for Proposed Action: 15A NCAC 2B .0306 - The Environmental Management Commission is proposing to reclassify the Green River in Henderson County (Broad River Basin) for primary recreation (Class B) and to include the High Quality Waters (HQW) supplemental classification. The Green River and its tributaries are proposed for reclassification from their source to, and including, Rock Creek from Class C Tr to Class B Tr HQW. The Green River and its tributaries, from Rock Creek to Lake Summit, are proposed for reclassification from Class C Tr to Class B Tr. Requests for reclassification of the Green River were submitted by a local property owner's association, independent property owners and boy's camp. Water quality studies conducted on the Green River and its tributaries show that the streams meet the criteria for Classes B and HQW in the areas proposed for reclassification as defined above. If reclassified, wastewater dischargers to the Green River will be required to comply with reliability standards set forth in 15A NCAC 2H .0124. Reliability standards require facilities to insure continued treatment of wastewater during instances of power failure. New and expanding wastewater dischargers to

the area affected by the proposed HQW reclassification in the Green River watershed will have additional treatment requirements. Projects which require a Sedimentation and Erosion Control Plan and which drain to and are within one mile of HQW streams will have more stringent land use development criteria as defined in 15A NCAC 2H .1006. The criteria for designation to High Quality Waters as defined in 15A NCAC 2B .0201 includes those waters which are rated as excellent based on biological and physical/chemical characteristics through Division monitoring or special studies, native and special native trout waters designated by the Wildlife Resources Commission, primary nursery areas designated by the Marine Fisheries Commission and other functional nursery areas designated by the Wildlife Resources Commission, critical habitat areas designated by the Wildlife Resources Commission or the Department of Agriculture, all water supply watersheds which are either classified as WS-I or WS-II or those for which a formal petition for reclassification as WS-I or WS-II has been received from the appropriate local government and accepted by the Division of Water Quality, and all Class SA waters. The B Classification is assigned to waters that are used for primary recreational purposes. Primary recreation is defined in Division rules as "swimming, skin diving, skiing, and similar uses involving human body contact with water where such activities take place in an organized or on a frequent basis." Under North Carolina rules, several criteria must be met before waters can be classified for primary recreational. These are: 1) the area must be of sufficient size and depth to support primary recreation; 2) fecal coliform concentrations must be less than 200 colonies per 100 milliliters based on a geometric mean derived from five samples taken within a 30 day period; 3) there must be no sources of water pollution which could result in a hazard to public health in close proximity to areas where recreation occurs; and 4) primary recreation must take place in an organized or on a frequent basis.

Comment Procedures: The purpose of this announcement is to encourage those interested in this proposal to provide comments. You may either attend the public hearing and make relevant verbal comments or submit written comments, data or other relevant information by June 10, 1999. The Hearing Officer may limit the length of time that you may speak at the public hearing, if necessary, so that all those who wish to speak may have an opportunity to do so. We encourage you to submit written comments as well. The EMC is very interested in all comments pertaining to the proposed reclassifications. It is very important that all interested and potentially affected persons or parties make their views known to the EMC whether in favor of or opposed to any and all provisions of the proposed reclassification. The EMC may not adopt a rule that differs substantially from the text of the proposed rule published in the North Carolina Register unless the EMC publishes the text of the proposed different rule and accepts comments on the new text (see 150B-21.2(g)). All interested and potentially affected persons are strongly encouraged to read the entire announcement and supporting information, and make appropriate comments on the proposal.

Notice is hereby given in accordance with G.S. 150B-21.2 that the DENR - Environmental Management Commission intends to amend rule cited as 15A NCAC 2B .0308. Notice of Rule-making Proceedings was published in the Register on January 15, 1999.

Proposed Effective Date: August 1, 2000

A Public Hearing will be conducted at 6:00 p.m. on May 11, 1999 at the Avery County Courthouse, 1 Avery Square, Newland, NC.

Reason for Proposed Action: *The Environmental Management Commission is proposing to reclassify Little Grassy Creek in Avery County (Catawba River Basin) to include the Outstanding Resource Waters (ORW) supplemental classification. Little Grassy Creek, from its source to the Linville River, including tributaries, is proposed for reclassification from Class C Tr to Class C Tr ORW. A request for reclassification of the headwaters of the Linville River to High Quality (HQW) was submitted by a local golf club to the Division Water Quality in 1997. The Linville River did not qualify for reclassification to HQW. However, during*

the water quality investigation it was determined that Little Grassy Creek, a tributary stream to the Linville River, qualified for supplemental classification as Outstanding Resource Waters. In order to be classified as ORW, a water body must be of exceptional state or national recreational or ecological significance and the waters must have exceptional water quality. In addition, the waters must also exhibit one or more of the following resource values or uses:

- (1) there are outstanding fish (or commercially important aquatic species) habitat and fisheries;
- (2) there is an unusually high level of water-based recreation or the potential for such recreation;
- (3) the waters have already received some special designation such as a North Carolina or National Wild and Scenic River, Native of Special Native Trout Waters, National Wildlife Refuge, etc. which do not provide any water quality protection;
- (4) the waters represent an important component of a state or national park or forest; or
- (5) the waters are of special ecological or scientific significance such as habitat for rare or endangered species or as areas for research and education.

Water quality analyses show that Little Grassy Creek has excellent water quality and supports a reproducing brook trout population, therefore qualifying this stream for ORW designation. Special protection measures that apply to North Carolina ORWs are set forth in 15A NCAC 2B .0225. At a minimum, no new wastewater discharges or expansions to existing discharges are permitted, and stormwater controls for most new development are required.

Comment Procedures: The purpose of this announcement is to encourage those interested in this proposal to provide comments. You may either attend the public hearing and make relevant verbal comments or submit written comments, data or other relevant information by June 10, 1999. The Hearing Officer may limit the length of time that you may speak at the public hearing, if necessary, so that all those who wish to speak may have an opportunity to do so. We encourage you to submit written comments as well. The EMC is very interested in all comments pertaining to the proposed reclassifications. It is very important that all interested and potentially affected persons or parties make their views known to the EMC whether in favor of or opposed to any and all provisions of the proposed reclassification. The EMC may not adopt a rule that differs substantially from the text of the proposed rule published in the North Carolina Register unless the EMC publishes the text of the proposed different rule and accepts comments on the new text (see 150B-21.2(g)). FINDINGS OF FACT

1. Petitioner, Riverhills, Inc. is a corporation duly incorporated and in good standing under the laws of the State of North Carolina.

2. The Riverhills Subdivision is located outside of Greenville, North Carolina, on Highway 33 East. Riverhills, Inc. is responsible for operation and maintenance of the Subdivision's sewer collection system, which includes a pump station located off Syme Circle. Riverhills, Inc. holds two nondischarge permits issued by the N.C. Division of Water Quality ("DWQ") regarding this sewer collection system:

A. Wastewater Collection Permit No. WQ0009548. W.E. Dansey, Jr., purporting to act on behalf of Riverhills, Inc., filed an application with the DWQ for the construction and operation of a sewer collection system for the River Hills Subdivision. A permit was issued on July 8, 1994, to Riverhills, Inc. for the construction and operation of approximately 2921 lineal feet of 8-inch gravity sewer to serve 54 single family lots of River Hills Subdivision - Section 5 and the discharge of 19,440 GPD of collected domestic wastewater into the Greenville Utilities Commission's existing sewerage system.

B. Wastewater Collection Permit No. 3327. This permit was issued on August 16, 1974, to Riverhills, Inc. for the construction and operation of approximately 9,300 lineal feet of 8 inch sewers and pump station with dual pumps and approximately 12,620 lineal feet of 6-inch force main to serve River Hills Subdivision, and the discharge of collected wastewater into the City of Greenville's existing sewerage system.

3. Wastewater Collection Permits No. 3327 and WQ0009548, as nondischarge permits, do not authorize Riverhills, Inc. to discharge untreated wastewater into waters of the State. Both permits contain conditions requiring the wastewater collection facilities to be properly maintained and operated.

4. On January 6, 1997, Ms. Lyn Hardison an Environmental Technician with DWQ's Washington Regional Office, received a citizen's complaint that a manhole located in Syme Circle of the River Hills Subdivision was overflowing with wastewater. Syme Circle is a cul-de-sac, lined with houses on either side of the street. Ms. Hardison observed and photographed the untreated wastewater overflowing from the manhole and running down the surface of the street to a storm drain. (Subsequently, the attorney for Riverhills, Inc. confirmed in a letter dated January 27, 1997, that the overflow was in fact sewage.) Ms. Hardison followed the storm drain to its outfall, and observed the wastewater discharging directly into wetlands adjacent to Syme Circle. The wetlands had been confirmed as such by the U.S. Army Corps of Engineers about thirteen months earlier. The wetlands drain into an unnamed tributary to Hardee Creek, which in turn flows into the Tar River. These waters are classified as class c - nutrient sensitive waters.

5. When Ms. Hardison arrived at the overflowing manhole at Syme Circle on January 6, 1997, there were no representatives from Riverhills, Inc. present. She then contacted Riverhills, Inc. and Mr. Bruce Gallinger, a maintenance supervisor, responded the same day. Prior to being contacted by Ms. Hardison, Riverhills, Inc. was not aware that the manhole was overflowing. Within hours, agents of Riverhills had removed the blockage and restored proper function of the system. DWQ sent Riverhills, Inc. a written Notice of Recommendation for Enforcement on January 7, 1997, regarding the incident. By letter dated January 13, 1997, the president of Riverhills, Inc., W.E. Dansey, Jr., informed DWQ that the January 6, 1997 overflow was caused by a grease blockage in the sewer collector line.

6. The Syme Circle manhole was constructed and operated pursuant to Permit No. 3327.

7. On January 21, 1997, Ms. Hardison returned to the Riverhills Subdivision on a follow-up visit to the Syme Circle manhole. A short distance from the Syme Circle manhole, she observed that the emergency light was activated on the Riverhills' sewer pump station. Upon closer observation, Ms. Hardison noticed that the pumps in the station were not operating. As a consequence of their operational failure, Ms. Hardison also observed that a second manhole behind the pump station was overflowing with what appeared to be untreated wastewater. Ms. Hardison took samples and confirmed that the overflow consisted of untreated wastewater. The overflowing manhole was directly located in, and discharging wastewater into, the wetlands noted in paragraph no. 3 above.

8. When Ms. Hardison arrived at the overflowing manhole on January 21, 1997, there were no representatives from Riverhills, Inc. present. She then contacted Riverhills, Inc., and Mr. Trey Dansey and Mr. Bruce Gallinger responded the same day. Upon inspection, agents of Riverhills found that the overflow had been caused by a blown circuit breaker on a Greenville Utility Company transformer which interrupted power to the pump station. The fuse had been blown due to a squirrel getting into the transformer. Within hours power was restored to the pump station and Riverhills ensured that proper function of the system

was resumed. Prior to being contacted by Ms. Hardison, Riverhills, Inc. was not aware that the manhole was overflowing. DWQ sent Riverhills, Inc. a written Notice of Recommendation for Enforcement on January 30, 1997, regarding the incident. By letter dated February 4, 1997, the president of Riverhills, Inc. informed DWQ that the January 21, 1997 pump failures were caused by failure of the pump station's circuit breaker.

9. The manhole observed to be overflowing on January 21, 1997, was constructed and operated pursuant to Permit No. WQ0009548.

10. The January 6, 1997 discharge resulted in part from inadequate operation and maintenance (and lack of routine monitoring) of the sewer collection system by Petitioners. The most immediate cause of this discharge was a grease blockage. The January 21, 1997 discharge resulted, in part, from failure of Petitioners to install, maintain and monitor adequate warning systems at the River Hills' sewer pump station, given the fact that the same manhole located behind the pump station had had several reported discharges just thirteen months earlier. The most immediate cause of this discharge was an unanticipated power outage in the subdivision.

11. In April of 1997, DWQ's Washington Regional Office recommended to the Director of DWQ, Mr. Preston Howard, that enforcement action be taken against Riverhills, Inc.

12. On March 17, 1997, Riverhills entered into a Consent Agreement with Respondent concerning a discharge violation that had occurred in 1995. During the negotiation of that agreement, Petitioners had informed Respondent's counsel of the January 1997 events and their immediate efforts to correct the problems. Although it was expressly understood that the Consent Agreement did not resolve the January 1997 events, Petitioners were under the impression from Respondent's counsel that the January events would be looked upon more favorably if the 1995 event was resolved by entering into the Consent Agreement.

13. Petitioners received no further indication that the Department was pursuing enforcement until they received, more than fourteen (14) months later, on April 18, 1998, a notice of Assessment of Civil Penalties in the amount of \$10,080.80 from the Department.

14. Petitioners' wastewater collection system had been constructed in compliance with design criteria mandated and approved by Respondents. However, in an effort to ensure that overflows such as these were prevented in the future between January of 1997 and April of 1998, Petitioners spent over \$8,000.00 on improvements to and maintenance on the sewer and pump system. These improvements were made upon petitioners' own initiative without any request by, or direction and guidance from, Respondent.

15. The improvements that were made by Petitioners between January of 1997 and April of 1998 included the installation of an auto-dialer, whereby four key people are immediately notified by pager if water levels rise above normal levels. Such a system is considered by Respondent to be a "fail-safe" system.

16. Other improvements included the replacement of a pump, the installation of a new motor, and the installation of a self-primer for the pump. Additionally, Petitioners have entered into an agreement with area residents to continuously monitor water levels at the pump station.

17. All of these improvements and arrangements were done prior to Petitioners receiving, in April of 1998, notice that Respondent intended to assess penalties for the January 1997 overflows.

18. No overflows or other major disruptions of the system have occurred since January of 1997.

19. During the time period that the "Riverhills, Inc. Enforcement Recommendation" was pending before Mr. Howard, nearly all such enforcement requests from across the state were put on hold as the Division reviewed its statewide enforcement policy. At the conclusion of the policy review, which spanned nearly six months, Mr. Howard resumed his consideration of various enforcement requests, including the "Riverhills, Inc. Enforcement Recommendation".

20. In assessing the civil penalty against Petitioner, Respondent considered each of the factors listed in N.C.G.S. §143B-282.1, as required by N.C.G.S. §143-215.6A.

21. On March 18, 1998, A. Preston Howard, Jr., Director of Water Quality, reviewed the enforcement file and determined that most assessment factors were insignificant. Factors found to be "not significant" were: degree of harm to natural

resources, public health, or private property; effect on ground or surface water quantity or quality; cost of rectifying the damage; whether the violation was committed willfully or intentionally; and cost to the State of enforcement procedures.

22. The Department does not pursue enforcement or the assessment of penalties for every violation of law or permit conditions. Mr. Howard indicated that under many circumstances no enforcement action will be taken. Those circumstances include: when the violation results from unforeseen circumstances; the failure of a man-made device; when the violation does not cause significant damage; or if a discharge is only minimal.

23. On March 28, 1998, even though he had found that the violations were not intentional, and did not result in any significant harm, Director Howard assessed penalties against Petitioners in the amount of \$10,080.80, which included \$4,800.00 per violation and \$480.80 in enforcement costs.

24. In assessing these penalties, Director Howard did not consider: corrective actions taken by Petitioners to address the problem; improvements to the systems to ensure that no future problems occurred; the costs of such improvements relative to the penalties assessed; or whether there had been any additional problems with the system.

25. In assessing these penalties, Director Howard relied solely upon a Draft Penalty Guidance Tree, dated August 19, 1997, which post-dated the violations by seven months.

26. Petitioner did not receive notice of these assessed penalties until April 17, 1998, which was more than fourteen (14) months after the overflows occurred, and more than thirteen (13) months after Petitioners' last contact with Respondent.

27. With regards to the corporate status of Riverhills, Inc. during the time period of the unpermitted discharges discussed above, the following is noted:

- A. During the period of January 1, 1997, through January 31, 1997, Riverhills, Inc. was a corporation duly incorporated under the laws of the State of North Carolina. W.E. Dansey, Jr. was President of Riverhills, Inc.; and
- B. As of March 10, 1994, through January 31, 1997, Riverhills, Inc. was under Revenue Suspension. Furthermore, from April 24, 1996, through January 31, 1997, Riverhills, Inc. was under Administrative Dissolution.

Based on the foregoing Findings of Fact, the undersigned Administrative Law Judge makes the following:

CONCLUSIONS OF LAW

- 1. All parties properly are before the Office of Administrative Hearings, and the Office has jurisdiction over the parties and the subject matter.
- 2. All parties have been correctly designated, and there is no question as to misjoinder or nonjoinder.
- 3. Wetlands constitute waters of the State pursuant to N.C.G.S. §143-212.
- 4. Petitioner, Riverhills, Inc. is a corporation duly incorporated and in good standing under the laws of the State of North Carolina.
- 5. Petitioner, W.E. Dansey, Jr. is the President of Riverhills, Inc.
- 6. The overflow of wastewater on January 6, 1997, from a manhole located in Syme Circle of River Hills Subdivision into wetlands did not violate N.C.G.S. §143-215.1 by making an outlet into the waters of the State without a permit.
- 7. The overflow of wastewater on January 21, 1997, from a manhole located behind the River Hills Subdivision pump station into wetlands did not violate N.C.G.S. §143-215.1 by making an outlet into the waters of the State without a permit.

Based on the foregoing Findings of Fact and Conclusions of Law, the undersigned makes the following:

RECOMMENDED DECISION

The Environmental Management Commission should reverse the decision of the Director of the DWQ to assess a civil penalty in the amount of \$10,080.80 against Petitioners because both discharges were proximately caused by intervening factors and not the result of intentional acts or omissions by Petitioner. Although Petitioner could or should have had proactive measures in place, it was not required by the regulators and Petitioner has since gone to significant expense to upgrade its system voluntarily. The 14 month delay between the events cited and the priority assessment is unreasonable.

ORDER

It is hereby ordered that the agency serve a copy of the final decision on the Office of Administrative Hearings, P.O. Drawer 27447, Raleigh, NC 27611-7447, in accordance with N.C.G.S. §150B-36(b).

NOTICE

The agency making the final decision in this contested case is required to give each party an opportunity to file exceptions to this recommended decision and to present written arguments to those in the agency who will make the final decision. N.C.G.S. §150B-36(a).

The agency is required by N.C.G.S. §150B-36(b) to serve a copy of the final decision on all parties and to the Office of Administrative Hearings.

The agency that will make the final decision in this contested case is the North Carolina Environmental Management Commission.

ORDER AND RECOMMENDED DECISION

This matter came on for hearing before the undersigned Administrative Law Judge on January 14, 1999, upon cross-motions for summary judgment. Petitioners' motions were granted. Petitioner Upchurch, Inc. ("Upchurch") was represented by R. Sarah Compton and William F. Lane. Petitioner North Carolina Forestry Association ("NCFA") was represented by Charles D. Case and Craig A. Bromby. Respondent Division of Water Quality ("DWQ") of the Department of Environment and Natural Resources ("DENR") was represented by Jill B. Hickey, Kathryn Jones Cooper, and Brian J. McGinn. Respondent-Intervenors Sierra Club and Dogwood Alliance were represented by Donnell Van Noppen III and Lark Hayes. (DWQ and Respondent-Intervenors Sierra Club and Dogwood Alliance may hereafter be referred to as the "Respondents").

As reflected in the record, the undersigned ruled on Respondents' motion to dismiss. After due consideration of the arguments of all counsel filed on October 2, 1998 and argued on October 19, 1998, Respondents' motion to dismiss the allegation by Upchurch that DWQ erroneously denied Upchurch's application for coverage under NPDES Stormwater General Permit No. NCG040000 for the timber products industry (the "NCG04 permit") was granted. Respondents' motion to dismiss the claims by both NCFA and Upchurch that DWQ erroneously excluded chip mills from coverage under NPDES Stormwater General Permit No. NCG210000 for the timber products industry (the "NCG21 permit") was denied.

ISSUE

Did DWQ exceed its authority or jurisdiction, act erroneously, fail to use proper procedure, act arbitrarily or capriciously, or fail to act as required by law or rule in its decision to issue NPDES Stormwater General Permit No. NCG210000 for the timber products industry with a term that excluded "chip mills" from coverage by that permit?

UNDISPUTED FACTS

1. Petitioner Upchurch proposes to operate a wood chip mill in Williamston, NC. Petitioner NCFA is a private, non-profit organization whose members are engaged in forest management and timber products industries, including wood chip mills.
2. On September 1, 1992, DWQ's predecessor agency, the Division of Environmental Management, issued NPDES Stormwater General Permit No. NCG040000 ("the NCG04 permit") authorizing the discharges of point source stormwater runoff associated with industrial activities classified as timber products (SIC 24), excluding logging, wood kitchen cabinets, and wood preserving facilities. Wood chip mills were eligible for coverage under the NCG04 permit. Between September 1, 1992 and August 31, 1997, approximately 14 wood chip mills obtained Certificates of Coverage under the NCG04 permit.
3. In the fall of 1997, the Director of DWQ, A. Preston Howard, Jr., made a preliminary decision not to allow general permit coverage for new or expanding wood chip mills. Mr. Howard instructed DWQ staff to draft a general permit for the timber products industry that excluded wood chip mills in addition to the same three categories of facilities that were excluded under the NCG04 permit. DWQ staff prepared a draft of the NCG21 permit, which was noticed in the North Carolina Register on January 2, 1998.
4. On April 1, 1998, DWQ issued the NCG21 permit as noticed, with a term that excluded wood chip mills from coverage under the permit.
5. The substantive provisions of the NCG21 permit are substantially similar to the requirements of the NCG04 permit. The only substantial difference between the NCG04 permit and the NCG21 permit is that wood chip mills are excluded under the NCG21 permit.
6. At the time that DWQ issued the NCG21 permit on April 1, 1998, DWQ had no water quality monitoring data concerning the impacts of stormwater discharges from wood chip mill facilities. Thus, at the time that DWQ issued the NCG21 permit on April 1, 1998, DWQ had no water quality monitoring data indicating that the impacts from stormwater discharges at wood chip mills were different from water quality impacts from stormwater discharges at other timber products facilities covered by the NCG21 permit. Consequently, DWQ's decision to exclude chip mills from the NCG21 permit was not based on concerns arising from quality problems associated with stormwater discharges from chip mills.
7. DWQ's decision to exclude chip mills from the NCG21 permit was based on concerns about secondary water quality impacts (sedimentation and erosion) from timber harvesting associated with chip mills. However, at the time that DWQ issued the NCG21 permit on April 1, 1998, DWQ had no water quality monitoring data indicating that water quality impacts from timber harvesting associated with chip mills were worse or different from water quality impacts from timber harvesting for other purposes. Instead, DWQ's decision to exclude chip mills from the NCG21 permit was based on concerns about secondary water quality impacts from timber harvesting associated with chip mills voiced primarily by environmental groups, but also including some state and federal government agencies and members of the scientific community and the fact that DENR, at the instruction of the Governor, was undertaking a scientific study to examine the issues of secondary impacts from chip mills. DWQ's decision to exclude chip mills from the NCG21 permit was also designed to allow DWQ to give the increased scrutiny that it can give to an individual stormwater permit application, to tailor permit conditions to the particular site and operation, and to provide an opportunity for public review and comment on the permitting decision.
8. DWQ indicates that, when it made the decision to exclude chip mills from the NCG21 permit, it wanted to await the results of the study before making general permit coverage again available for new and expanded chip mills. However, at the time that DWQ made the decision to exclude chip mills from the NCG21 permit, the scope of the chip mill study did not include an analysis of quality of stormwater discharges from chip mills.
9. DWQ's decision to exclude chip mills from NCG21 was also based, at least in part, on its claim or perception that there exists a threat from the location of a number of new, "high-capacity chip mills" using new technology, and also based on an awareness of an Environmental Impact Statement and decision by the Tennessee Valley Authority, as reflected in the record.
10. Because new and expanding wood chip mills are excluded from the NCG21 permit, these facilities must apply for an individual NPDES stormwater permit. The individual permit application process is more burdensome than the general permitting process in that, among other things, the individual permit application requires more information, is more expensive, takes longer, DWQ may impose site-specific conditions in the individual permit, and the public may comment and request a public hearing on the individual permit application.

CONCLUSIONS

1. No genuine issues of material fact remain in the matter before the Administrative Law Judge which would prevent the granting of summary judgment in favor of Petitioners.
2. Petitioners Upchurch and NCFA are persons aggrieved by the Respondent's decision to issue the NCG21 permit with a term that excludes wood chip mills from coverage under the permit.
3. Sections 143-215.1 and 143-211 of the General Statutes, and rules adopted by the Environmental Management Commission ("EMC") set forth the authority of the EMC regarding, *inter alia*, the issuance of permits for the discharge of stormwater.
4. The EMC has delegated its authority to issue permits for the discharge of stormwater to the Director of the DWQ.
5. Sections 143-215.1 and 143-211 of the General Statutes and the EMC rules adopted do not authorize the EMC to consider secondary or off-site water quality impacts when determining whether to issue, limit, or condition a stormwater permit. As a matter of law, secondary impacts are different from cumulative impacts.
6. DWQ exceeded its authority and jurisdiction under N.C. Gen. Stat. § 143-215.1 when it considered secondary (or off-site) impacts in its determination to exclude chip mills from the NCG21 permit.
7. DWQ failed to act as required by law pursuant to N.C. Gen. Stat. § 143-215.1 when it excluded chip mills from the NCG21 permit.
8. 15A NCAC 2H.0100 authorizes DWQ to issue National Pollution Discharge Elimination System ("NPDES") permits for point source discharges to the waters of the state. The NCG21 permit is a NPDES permit that has been issued by DWQ pursuant to its delegated authority from the U.S. Environmental Protection Agency. However, pursuant to 40 CFR § 123.27(b), timber harvesting activities are exempt from all NPDES permit requirements.
9. DWQ exceeded its authority under 15A NCAC 2H.0100 when it considered the impacts of timber harvesting activities in its decision to exclude chip mills from the NCG21 permit.
10. Pursuant to N.C. Gen. Stat. § 113A-50 et seq., the Sedimentation Pollution Control Act ("SPCA") sets forth the exclusive statutory authority regarding the water quality impacts of sedimentation and erosion from timber harvesting activities. Pursuant to N.C. Gen. Stat. § 113A-52.1(b), timber harvesting activities must comply with either the provisions of the SPCA or the Forest Practice Guidelines Related to Water Quality.
11. Pursuant to N.C. Gen. Stat. § 113A-54, the Sedimentation Control Commission has been designated the agency with administrative authority to implement the SPCA. Pursuant to 15A NCAC 11.0101(b), the Department of Environment and Natural Resources has designated the Division of Forest Resources as the agency with sole administrative authority to implement the Forest Practice Guidelines Related to Water Quality. Neither the SPCA nor the Forest Practice Guidelines Related to Water Quality provides authority for the EMC or DWQ to consider the environmental impacts of sedimentation and erosion from timber harvesting activities in determining whether to issue, limit, or condition a stormwater permit.
12. As a result of the foregoing, DWQ exceeded its authority and jurisdiction when it considered the secondary impacts of sedimentation and erosion from timber harvesting activities that provide wood to chip mills and, based on that consideration, decided to exclude chip mills from NCG21.
13. If it is later found that DWQ did not exceed its authority or jurisdiction in excluding chip mills from the NCG21 permit, based on the deference that judicial precedent accords decisions by DENR, I am constrained to find that DWQ's decision to exclude chip mills from the NCG21 permit was not arbitrary and capricious or an abuse of discretion. See *Everhart & Associates, et al v. Dep't of Environment, Health and Natural Resources*, 127 N.C. App. 693, 493 S.E.2d 66 (1997).

RECOMMENDED DECISION

It is recommended that summary judgment, pursuant to Rule 56, Rules of Civil Procedure, and 26 N.C.A.C. 3.0105(6) be entered in favor of Petitioners Upchurch, Inc., and North Carolina Forestry Association because there is no genuine issue of material fact and, as a matter of law, Respondent lacks statutory authority to consider secondary (or off-site) water quality impacts of chip mills in determining to exclude chip mills from NPDES Stormwater General Permit No. NCG210000. The permit term excluding chip mills from the coverage of NPDES Stormwater General Permit No. NCG210000 should be stricken because it was

based on matters outside the lawful authority and jurisdiction of Respondent, and DWQ should be directed to issue or reissue NCG210000 without any term excluding chip mills.

NOTICE

The final agency decision in this contested case shall be rendered by the NPDES Committee of the Environmental Management Commission. Each party has the right to file exceptions to the recommended decision and to present written arguments on the recommended decision to the NPDES Committee. The NPDES Committee shall serve a copy of its decision on all parties, the attorneys of record, and the Office of Administrative Hearings.
